

A TRIBUTE TO MOTHER MYRTLE KENNER LOWDER

by Nelda Lowder

I am sure each of Mother's boys and girls would agree with me. Mother is a very pretty woman, always neat and clean. Everything had its place and she knew where to find it. When she worked out in the field she would clean at night until the house was clean or she wouldn't go to bed. She had pretty black hair and it was always very neat -- not a hair out of place. She did beautiful hand work, especially crocheting. She did quite a lot of it.

She did a lot of sewing, making all her boy's shirts and most of her own clothing. She did some sewing for her grandchildren when they were young. She enjoyed her church callings and did them well.

She had lots of flowers around her home and made it a place of beauty. She could make a lovely home out of a shack if she had to. She was a hard worker. She worked hard on the farm and in her home or whatever she was doing. She also did all her own canning, never wasting any time as long as her health permitted. She loved people and they loved her.

We are proud to be her family.
