

GETTING READY.—Passing Latimer & Taylor's place to-day we stepped in, and were gratified to see that they had part of their machinery almost ready for running; and to learn that they have more on the way from the East, which they expect in a few days. They have been able to make their arrangements so that in a short time they will be running more effectively, in the planing, sash and door business, than they were before the fire which burned down their factory in the 8th Ward.

THE "JUVENILE INSTRUCTOR."—Frequent inquiries are made concerning the non-appearance of this very popular and widely circulated periodical. The cause is the lack of paper. The paper was shipped from Benton on the 20th of August, and it ought to have been here before this time. The number of the *Instructor* that should have been issued on the 1st inst., is ready to go to press any minute, and as soon as the paper arrives, which may be to-day, it will be printed and issued.

CHANGE OF TIME.—The hour for opening the Theatre and commencing the performance has been changed, being half an hour earlier. The doors are now open at seven o'clock; and the performance commences at half past seven.

CAPTAIN MUMFORD'S train camped last night in Parley's Park, this side of Wm. Kimball's. It will likely camp to-night somewhere about the mouth of Parley's Canyon, and may be expected in the city to-morrow forenoon.

FROM HARRISBURG.—We had a call this morning from Bro. E. K. Fuller, who arrived from Harrisburg yesterday with a load of cotton yarn. He reports the general health in the southern settlements as good. The crops this season of grain, fruit and cotton are fully equal to previous years, and considerable wheat has been grown in places where it could not be irrigated. At Heberville the dam was washed away, and the people believed their crop was ruined because they could not irrigate it, but they had a fine crop. At Harrisburg they have had a very excellent yield of apples, peaches and grapes. The quantity of available land there is considerably larger than was at one time supposed as some three hundred acres lying about a mile and a half from Harrisburg, on the Washington road, which it was thought impossible to irrigate, is found now can be watered without great labor or expense, from the South Cottonwood. The grasshoppers had left Harrisburg before Bro. Fuller started north, having injured the cotton some little, and having done the heaviest damage to the second planting of corn. They moved in a south-westerly direction. We hope our southern brethren will take the advice given to northern farmers and sow Fall wheat. By doing so they can almost be sure of a crop, even if the grasshoppers should visit them in great numbers, for the grain would be so far matured before they fly that but little if any damage would be done to it. If President Snow's counsel on this matter last Fall had been taken to a greater extent, more wheat would have been harvested this season.

We can speak of Harrisburg intellectually in high terms, for though a very small settlement it takes forty papers from this office. We wish its people peace, prosperity and progress.

FROM THURSDAY'S DAILY.

PRESIDENT YOUNG'S MOVEMENTS.—We have been favored with the following by Deseret Telegraph Line.

Salt Lake City, 24.—The President left Fort Ephraim this morning at 9 o'clock, and arrived at Manti at 10. A meeting was held in Manti this morning. The company goes to Gunnison to-night.

POLICE.—Charles Anderson was arrested to-day, charged with twice selling a load of hay, once receiving part payment, and the other time receiving full payment. He was fined \$10, and the part payment was refunded.

Mike Anderson was again arrested last night for being drunk, and this morning his Honor "talked to him," hinting strongly at the decoration of the ball and chain, as Mike is not burthened with greenbacks. Affected by his Honor's remarks, he struck out for the north, determined to "go somewhere and earn something."

TRAIN IN.—Captain Mumford's mule train, of twenty-eight wagons, got in to-day before three o'clock. He brought 250 passengers. There were five deaths of adults by the way and two infants, twins. Two persons were left at Green river, being so sick that it was not deemed wise to bring them further. The passengers who have arrived look healthy and lively.

ACCIDENTAL DEATH.—We have received the following telegram, by Deseret Telegraph Line, through the courtesy of the Operator here:

St. George, Sept. 24.—Last night a son of Ben. Johnson, aged ten years, had his head caught between the sloop and an upright post of a molasses mill, and was killed instantly.

LARGE.—Bro. John Reading brought us, this afternoon, a few leaves of the white mulberry, one of which measured eleven inches in length by eight inches in width. Silk worms could find something to eat at in leaves of such size. He obtained them so large by judicious pruning. The trees from which they were taken have not been irrigated this season.

OMAHA MARKET AND PRICE CURRENT.—We are again indebted to Henry S. Jackson & Co., wholesale grocers, Omaha, for a price current. Our correspondents say "You will notice many changes since last report. The Fall trade has commenced in earnest, and though goods are high, the demand is large. In provisions the market rules firm. Butter is in good supply. Sugars are very much lower and bid fair to remain so, as the demand from fruit packers is very limited owing to scarcity of fruits. Coffee and all 'gold goods' are lower, owing to the decline in gold."

Refined sugars: Crushed, powdered and granulated, 17 $\frac{1}{2}$ c; coffee A, 16 $\frac{1}{2}$ c; coffee B, 16c; extra C, 15 $\frac{1}{2}$ c; Porto Rico, 15 $\frac{1}{2}$ c; Cuba, 15c; Syrups: extra drips, [kegs] \$1.30; New York syrup, 1.10; amber, 1.50; Cuba molasses, 70c. Coffees: O.G. Java, 39c; Costa Rica, 32; Rio, choice, 26; medium, 25; common, 23 $\frac{1}{2}$ to 24. Teas: gunpowder, choice, \$1.50 to 1.65 to 1.70; medium, 1.40 to 1.50; imperial, choice, 1.50 to 1.70; medium, 1.25 to 1.45; Young Hyson, choice, 1.25 to 1.75; medium, 1.10 to 1.25; Oolong, 1.15 to 1.35; Japans, 1.05 to 1.30. Assorted groceries: rice, Rangoon, per lb, 11 $\frac{1}{2}$ c; Louisiana, 12; Carolina 12 $\frac{1}{2}$; Saleratus, Babbitt's best, 11c; Babbitt's pure, 10 $\frac{1}{2}$; De Land's best, 11; Soda, (Durkee's) 9; Starch, pearl, per lb, 8 $\frac{1}{2}$ c; silver gloss, 12; corn, 12. Canned goods: peaches, 2 lbs, 2 doz., per case, \$9.00; pine apple, 8.75; blackberries, 5.00; strawberries, 7.50; tomatoes, 5.50; corn, 6.00; string beans, 6.00; green peas, 6.00; lobster, 6.25; oysters, (Field's) 6.50. Dried fruits: blackberries, 29c; peaches, 18; apples, 15; cherries, 20; prunes, 18; currants, 16. Provisions: mess pork, per bbl., \$34.00; mess

beef, 25.00; sugar-cured hams, per lb., 22c; dried beef, 25; bacon, 22; shoulders, 19; lard, choice, 23; butter, 35. Fish: cod fish, per lb., 9 $\frac{1}{2}$ c; mackerel, No. 1 half bbls, \$12.50; No. 1 kits, 3.00; family half bbls, 9.50; family kits, 2.25; white fish, half bbls, 9.00; kits, 2.80; herrings, sold., per box 60c.

RECIPROCATING.—We received a communication yesterday, signed by G. P. Carr, in which he says that the workmen employed on the grading contract of E. R. Young & Sons, in Echo Cañon, have been highly gratified at the manner in which they had been treated by their employers. They have finished the work after three months labor; and have returned to the city. The work was done in good style, though several disadvantages had to be contended with; and the communication received implies that the warmest feelings existed between employer and employed. To give a fitting finale to the engagement Messrs. Young treated their men with their families to the Theatre on Tuesday evening, on the occasion of Mr. Margetts' Benefit.

FROM FILLMORE.—We had a call to-day, from Bro. R. A. McBride, of Fillmore, who reports peace and quietness prevailing there. The crops were good in the southern part of Millard County; but in the northern part of the county they were very light, though the cane and potato yield is good all through. There is an abundance of fruit, the grasshoppers not having injured it as in many other places, though they did much damage to various crops. The insects left that region in a westerly direction, flying towards the desert, before they commenced depositing their eggs.

PERSONAL.—A. A. Needham, Esq., brother to our respected citizen, John Needham, Esq., arrived by stage this morning from the east, being the first time he has ever visited this city. Mr. Needham is a musician of great proficiency, and as a teacher of music has had large experience. In St. Louis, where he has resided for years, his abilities as a musical teacher are acknowledged by the most competent critics. Considering the great love for music which our people manifest, there is room for, and need of, such a proficient as Mr. Needham; and if he turns his attention here to his profession he will find no lack of pupils.

RE-OPENED.—The growing want of accommodation for travelers in our city has been the topic of conversation in places for some time, a want which the re-opening of the Reverie House will obviate. This large hotel has been opened by Dewey & Bailey, who are well calculated to cater for the public and secure extensive patronage. Mr. Bailey is an old hand at the business; and few men in the west are better able to give satisfaction in his line than Mr. Dewey, as all who know "Frank" can testify. The hotel is well situated and will command a large share of patronage.

ITEMS.

FROM TUESDAY'S DAILY.

PROFESSIONAL.—We understand that Mr. Robert Beauchamp, who arrived last week from the west, is about to appear on our boards, and will make his first bow on Thursday night. Mr. Beauchamp is an actor of thirty-seven years' professional experience, and has earned considerable of a reputation, playing in all sorts of roles, from leading business to a low comedy. We bespeak for him a kindly extended reception.

Miss Annette and Miss Emilie Ince left by stage yesterday for Virginia City, Nevada. They bear with them the good wishes of many warm admirers.

POLICE.—The police record to-day seems to say that some people need looking after badly.

Yesterday afternoon Claude Clive was fined \$100 and costs for selling whisky without a licence.

James Leach was fined \$10 for furious driving.

John McDonald was this morning fined \$10 for assault and battery.

Why don't you quit this kind of thing, and save yourselves and other people trouble.

DISTRICT COURT.—To-day in the case of Carter & Black vs. Robert McComb, judgment went by default.

In the case of Marshall & Carter vs. Ellis Bro's, judgment also went by default.

The case of Hussey, Dahler & Co. vs. Harris & Grant was similarly disposed of.

Two aliens were admitted to citizenship. Court adjourned till Friday at 10 a.m.

FROM SWITZERLAND.—Through the kindness of Elder Wm. Clayton, we are enabled to make the following interesting extracts from a letter to him written by Elder Karl G. Maeser, under date August 18th.

"President Franklin D. Richards has been over here in Switzerland for three weeks traveling with me through the mission, holding three conferences on successive Sundays for the three German districts of the Swiss Mission, and helping me to put things on a moving principle. There is a spirit of animation filling the hearts of the Saints which is quite refreshing to behold. We baptize weekly here in many branches now, and more have been baptized already again than have left with this Spring's emigration. We feel to rejoice at this, and to thank the Lord in our inmost souls for His great blessings unto us. We have now four conferences again in Switzerland, with two traveling elders in each, consisting in all of seventeen branches. Elder Lewis Grant has arrived and has taken charge of the Zurich Conference, inclusive of the clerking in my office, which has been moved to Zurich. Bro. Horne's faithful labors in this mission, his great integrity and pure and exemplary life, have won him an affectionate remembrance among all the people that know him. . . . The brethren are studying day and night to learn German; and according to yesterday's letter Bro. Heber Young's progress in that language is quite cheering. He is President of the Conference of East Switzerland, comprising the cantons of Thurgau, Appenzel, St. Gallen and Granbunden, with his head-quarters at Herisau. Bro. Willard Richards is President of Bern Conference. He is a great favorite with the people, and speaks German already tolerably well. Bro O. Urnsbach is gone to Belgium to see if he cannot open a mission there.

INDIAN FIGHTING.—We take the following from the *Rocky Mountain News*, relative to the progress of Indian matters in Colorado, and the steps taken to prosecute an Indian war:

"No doubt the public read with pleasure the extract from one of Sheridan's dispatches to Secretary Hall, in reference to the disposition of troops on the Plains, published by the *Tribune* yesterday. The Secretary has received further dispatches of the same tenor, from which it appears that troops are moving in all directions, and with as much rapidity as circumstances and the country to be traversed, will allow. Two or three columns are concentrating on the Kiowa. Forts Reynolds and Lyon are to be strengthened, as soon as may be, which means as soon as the troops (cavalry) can be had from the frontiers of Kansas, and from the Southern States. The disposition made of forces by Gen. Sheridan leaves no doubt that all raiding parties will be withdrawn from Colorado, and in due time the entire hostile confederation subjugated."

FROM WEDNESDAY'S DAILY.

THE IMMIGRATION.—We have been favored with the following telegram to President Young from Captain Holman, whose train is the last of this season's immigration:

ECHO CITY, Sep. 23, 1868.

President B. Young:

The train is now passing. Will camp on Grass Creek.

J. T. HOLMAN.
