Dear Aunt Florence,

Your letter really thrilled me.

I got all hot and cold when I read about Uncle Spieth's wife Neva. That was a hope so desperate that I never really expressed it.

Thank goodness you're getting some of your strength back. It's discouraging to curtail activities.

Wally's address is:

535 E. 1980 N.

Provo Utah

Jane's baby is due in March & we're all excited.

Jeanie & Sandy each sent me Xmas cards with little notes that just made me choke up. I don't deserve such devotion. I was sorry not to be able to give them the small gifts I had.

Ann et al are fine.

Mother did four patterns of needlepoint to be blocked into four little chains for the kiddies. I'm dying to see it all.

You are always the one to remember that I'm still a book-worm. I won't discourage you from sending the book because I know your generous nature. You really get your happiness from doing kind things for other people.

My new address is in a down just behind the old one. In fact I have the same down parents.

163 M. F. Smith  
Heritage Hall  
Provo, Utah

The clock reminds me I've got to run to a committee meeting to paint sets for an assembly Friday.

Thank you so much for writing.

Love, Lynn
