

Our home life was typical of most home.

For bathing ^{day} out would go mothers big boilers to heat water in would come a big round tub over was round some later were long but any way part of us would bathe in one tub full others would have another tub full of water. you see part of the time water had to be carried from an outside well.

Times are different now we used to be lucky to have a piece of home made candy and orange on special occasions, pop corn, cookies some times as ~~we grew older we~~ we used to play perq with marbles that was a lot of fun jump the rope and oh yes we played ball.
