Dear Renee,

Thank you so much for your note and family information. I'm not sure how you got the mailout -- it came from a national listing of Ethington Families -- but I'm glad that it did get to you. As well as I know your Dad, I had nothing at all on your family. Thanks for filling in some of the blanks.

I am sending you a copy of your personal pedigree chart, showing your Ethington ancestry back to William Ethington, Virginia in the 1700's. He is the first one we know of, but it doesn't look like he is the immigrant. So, you can see that we have been in this country for a long, long time. I have also included a decendancy chart for your great grandfather, George Floyd Ethington. This shows all of his descendants, which should be interesting for you.

One other document is included. That is a family group sheet for your father's family, showing you kids as children. You can see that I have little on them, and anything you could add would be a great help.

Renee, I have about 100 other pages of information on your direct line ancestors - family group sheets with historical notes, research comments, and facts from their lives. I will be more than happy to copy and send it all to you if you would like it. I have found in the past that I sometimes "overwhelm" people who don't care to have that much paper around. Whatever. It's here if you want it.

Again, thank you for sending this information. There are almost 10,000 family names now in our computer base, and it is nice to finally have yours there too. My best to your Dad. He was a great help to our family when I was young. I have very fond memories of him and what he did for us.

Sincerely,

---
