An inventory is created for a couple's collective property.
It lists the man's accumulated property
Such as meadows
Or acreage
The total sum of the man’s property is established.

His other assets are being recorded such as dowry:

- cash
- clothing
and books
Then the same format follows for the wife. She has been given or inherited from her father property which is then listed with all her other assets.
Here then is the total sum of the wife’s properties and assets and the sum of the couple’s united properties.

There follows a summary of stipulations and how sums are to be distributed.
followed by signatures of parties involved
