Search Records: Location, Time Period, and Do a Community Search

Community Search: a search for people living and interacting in a common location, or activities
- Search the entire city, county for your surname- place in family groups and in social groups; by: ages (generational), birthplace, occupation
- Search for all individuals in the same town with the same surname
- Search for all known surnames and family members
- Search for neighbors

When the results of a search for records by location, time period and community reveal or give a slave owner’s name; the search grows to include searching for the records of the slave owner and his family.

Challenges of the Records

Searching the plantation records requires

- Time and patience
- The documents are not number or paged
- They may be in a general chronological order
- Documents filmed right next to each other may not relate and be two very different subjects
- The records are not indexed
- Before filming the records had some deterioration
