Catholicism was the main religion in England until 1534 when King Henry VIII severed all ties to the Pope in Rome, and then began the Church of England. Those who did choose not to conform to the beliefs and teachings of the Church of England were considered nonconformists. In spite of centuries of persecution they conducted their own ceremonies and kept their own records as much as allowed. Many of these nonconformist registers survive and are now available online.

Strategies for Searching Non-Conformity
- Find what nonconformist denominations existed in an ancestor’s Church of England parish by going to:
  - maps.familysearch.org > type the parish name; click Search > Click on the name of the parish > a box will appear with info about Non-Church of England denominations in that parish.
  - National Index of Parish Registers- FHL 942 D27ste
- County directories, gazetteers, maps, histories, the 1851 religious census all may help you locate congregations.
- Nonconformists were required to marry in the Church of England from 1754-1837, and may have chosen to marry by license in order to avoid the marriage banns. Search for marriage bonds and allegations in the Diocese.
- Nonconformist chapels could cover long distances. Search Church of England parish registers and nonconformist registers at least within 10 or so miles.
- Nonconformist ancestor’s births and burials may have even been recorded up to as many as 20 miles away depending on where the nearest nonconformist chapel of their choice was located. This is particularly with Methodists & their Circuits.
- Reconstruct families by combining church records with other sources like probate, parish chest, court, tax, etc.
- Some children may be christened in the Church of England while siblings were baptized in nonconformist chapels.
- People were changing their religion back and forth. Search all nonconformist chapels in a given area if registers aren’t found in the Church of England.
- Some nonconformists, like Baptists, did not believe in infant baptisms so they recorded the births instead. They had adult baptisms.
- Quakers did not believe in baptism so they only recorded births (and marriages).
- One generation may have been nonconformist while another the Church of England.
- Early LDS converts on average joined two other denominations before converting.
